GIBBS MANUFACTURING CO.

LAWN RAKES AND POST HOLE DIGGERS.

(PATENTED.)

"GIBBS."

Price per dozen,

The Gibbs Lawn Rake.

Lawns are cleaned perfectly with this Rake in less time and labor, requiring no cleaning of teeth and does not tear the sod when raking. The Closed Hood enables a larger amount of grass or leaves to be drawn forward at a time. Unloads by pushing backward. 30 steel wire teeth of No. 9 gauge, a 24-inch head, neatly painted. Crated in one dozen lots, heads and handles separately.

\$9.00

The Canton Lawn Rake

Has the essential qualities of the Gibbs Rake without the Closed Hood and end runners. The teeth, like the "Gibbs" are so formed as to rake cleanly without tearing the sod. They cannot come out, get loose, or twist. Is strongly made, light, durable and a good seller. 30 steel wire teeth of No. 9 gauge, a 24-inch head neatly painted. Crated in one and two dozen lots, heads and handles separately.

Price per dozen,

ALL STEEL.

(PATENTED.)

"FAVORITE"

Price per dozen,

The Favorite Lawn Rake.

Made with a 24-inch Steel Head and 24 steel wire teeth of No. 9 gauge, both of which are heavily tinned, preventing rusting and always insuring an attractive and saleable appearance. Teeth are securely fastened and cannot become loose. To unload Rake, push backward without raising it. One motion clears all the teeth. Crated in one and two dozen lots, heads and handles separately.

THE GIBBS POST HOLE DIGGERS

Give universal satisfaction.

— ADVANTAGES. —

1st.—Easiest operated and simple in construction.

3rd.—More soil can be brought out at one time.

2nd.—Time and labor saved the operator.

4th.—The blade is free from any obstruction.

5th.—Scours or cleans better in mucky soil.

6th.—Only one blade to sharpen and repair.

7th.—The loose soil is all on top of blade and cannot fail to be lifted out.

8th.—All wearing parts have steel pins.

9th.—Will make a hole of any desired diameter and three feet deep.

10th.—The blade receives all the thrust and none on the hinge.

11th.—Stones and boulders are easily loosened and removed by the compound lever.

12th.—The blade is made of the best tempered cast steel and other parts of good malleable iron and handles of extra quality hickory or ash.

Every Digger Fully Warranted.

Price per dozen,

Enlarged View of Lever.

Enlarged View of Blade.
